

Matrax 4x4 LDR Recycled Flooring System.

INTRODUCING MATRAX LDR RECYCLED!

LOW-COST, RECYCLED HDPE PEDESTRIAN-GRADE INTERLOCKING FLOORING SYSTEM

Best value in its class: The only recycled tent and event flooring system composed of 4' x 4' interlocking panels, the Matrax LDR system creates a smooth, stable and trip-free surface for guests, furnishings and wheeled equipment.

Easy Installation and Handling: Specifically designed for portability, this light-weight system can be installed efficiently with a small crew.

Better Than Plywood: Made from recycled HPDE plastic, Matrax LDR interlocking panels will last for many uses for years to come.

MATRAX LDR RECYCLED FEATURES

- Slip-resistant tread pattern
- Safe, rigid, and sturdy
- Pedestrian friendly
- Vertical locking system with reinforced structural ribbing
- Aeration holes to allow water drainage
- ADA complaint ramps can be added to enhance functionality
- No loose parts
- Easy installation, handling, and transport
- Robust and long-lasting
- Made in the USA from recycled HDPE plastic

APPLICATIONS

- Portable Tent Flooring
- Portable Event Decking
- Sub Flooring
- Temporary Walkways

This product is a low-cost alternative intended for inside and covered applications only, as the field performance of recycled plastic under direct sunlight is inconsistent.

THE PERFECT ALTERNATIVE TO PLYWOOD!
