

One Size Does Not Fit All.

Introducing! Matrax 4x8 TNG Ground Protection Mats

THE MOST EFFECTIVE PLYWOOD ALTERNATIVE

JUST “THROW AND GO”

At just 70 lbs., the Matrax 4x8 TNG ground protection mat is the lightest ground protection mat on the market. Offering extreme durability, this reusable asset delivers a return on investment within 4 uses.

FEATURES

- Light mat weight for quick installation
- Standard hand holes provide for ease of handling
- Holes in all four corners allow mats to be connected with zip ties or metal links
- Standard white color helps protect grass from burning in high heat
- Two-sided tread grip design helps mitigate turf damage and makes a safer surface for workers and equipment
- Will not warp, splinter and degrade, even in excessive heat and cold
- Will not absorb oil and other chemicals; easy to clean
